

Chart Analysis

(aka: *Should I have bought this stock...?*)

This workshop session will test your technical analysis knowledge and ability. We will show a price chart (hiding recent price data), then seek your input, decide whether to buy, then reveal the stock and all recent price data.

Original: May 2025, and
repeated with tweaks April 2026

Revision: 3.2

Introduction

Should I have bought this ...?

- In this session we will show a price chart for a “security” (a stock, or ETF or whatever), with recent price data hidden (from 5th April 2025), and we will ask you this question:

“Should I have bought this stock?”

- In the live delivery of this presentation, you will be invited to contribute:
 - Suggest a chart indicator to include;
 - Suggest time period: daily, weekly, monthly.

About this presentation

The purpose of this session is:

- For you to test how good your stock-picking is; and
- To give you the opportunity to pick up some tips from others about technical analysis and stock picking.
- NOTE: This version 3 of the slide deck includes lots of annotations on the price charts, based on feedback from the ATAA live workshop delivery, and the BullCharts User Group meeting.

On the next slide: the stock we will be studying...

(The gist of this presentation is based on the delivery of a similar presentation/workshop to the ATAA in October 2024.)

This is the chart we will study today.
 The security name/symbol is not disclosed.
 Price data until 4 April 2025 is shown.
